DIGITAL POSTER PRESENTATION GUIDELINES

The Fragility Fracture Network Global Congress (FFN) Organising Committee welcomes your contribution to the 2022 Congress.

Please take the time to **read these guidelines ahead of time.**

REGISTRATION DETAILS

Prior to the Congress

All presenters are required to register and pay for the Congress. Please register via the website here: <https://www.ffnglobalcongress2022.com.au/registration/>.

POSTER PREPARATION

Digital posters will be available for viewing on the Congress virtual platform. Audio is supported if embedded. Attendees can zoom in or out and swipe to view more slides. Attendees can also contact you via the system to engage in a conversation about your poster.

Digital posters are created as PowerPoint presentations and uploaded into the [digital poster portal](#) located in the same portal you used to submit your abstract. This system converts your poster presentation into an interactive format for viewing.

All digital posters must be uploaded to the online portal by **23:59 AEST on Friday 14 October 2022.**

When creating your digital poster, please follow these guidelines:

- All digital posters must be submitted in either .PPT or .PPTX format.
- All digital posters must be submitted in 16:9 landscape orientation
- If you would like to do so, you are limited to a maximum of 4 slides within your digital poster, organised as you wish (e.g. one for Title, Introduction & Methods, two for Results and one for Summary & Acknowledgements). Posters that consist of only a single slide can still have embedded animations and/or multimedia.
- JPEG or PNG is the preferred file format for inserted images. Please be mindful of any copyright issues of photos used when creating your poster
- Each submitted poster file in .PPT or .PPTX format must not be larger than 1GB
- Font – Calibri, Verdana, Times New Roman and Arial are recommended
- Font size – 20-24pt for Titles/Headings and size 14-18pt for text blocks are recommended.

Support for multimedia:

- Slide transitions and animation is supported

- Embedded videos are supported. Ensure the video is embedded into the presentation file, as you will be unable to upload the video separately. The following formats are supported:
 - Video: AVI, WMV, MPG, MP4

POWERPOINT FORMATTING

Please ensure your **PowerPoint Presentations are in 16:9 format**. To adjust your slides, prior to creating your presentation, please follow these steps:

1. In PowerPoint 2013/2016 choose the “design tab” then click on the “slide size” button. In PowerPoint 2007/2010 choose the “Design” Tab then click the “Page Setup” button. In PowerPoint 2003 Choose File > Page setup.
2. In the drop-down box, select “Widescreen (16:9)”.
3. Note: Please aim to have a maximum of 15 slides to ensure you have time to discuss each slide within your presentation time.

EMBED YOUR FONTS

We encourage you to embed the fonts you are using in your presentation to ensure that they are displayed correctly during your talk. As each computer system and company can have its own unique fonts, they may not appear correctly if the font is not embedded into your slides.

To embed your font into your PowerPoint presentation:

1. Click File > Options > Save As > Browse
2. In the dialog box, click Tools > Save Options on the lower right-hand side.
3. Scroll down to where you see the embedding options at the very bottom and check that ‘Embed fonts in the file’ and ‘Embed all characters’ are both selected.
4. Click ‘Okay’ and then save the presentation.

Now that your fonts are embedded into your PowerPoint file, you can now share the file or upload to the internet and keep all fonts displayed exactly as in the original PowerPoint.

For a step-by-step video on how to embed your fonts, please [click here](#).

DIGITAL POSTER PRESENTATIONS

Digital poster authors will have the opportunity to submit a 5-minute pre-recorded presentation to accompany their poster on the platform. For recording and submissions instructions, please refer to the [FFN Congress 2022 – Pre-Recording Guidelines](#).

EMBEDDING A VIDEO IN POWERPOINT

1. Click on the slide you want, then go to Menu > insert.

7. You will receive a poster submission confirmation via email once your digital poster has been processed and converted into a display-friendly format. The email confirmation will also contain a link where you can review your digital poster.

Please review and ensure your poster has been uploaded correctly. Should you require assistance uploading your digital poster, please contact the Conference Managers via ffncongress2022@arinex.com.au.

If you do not have PowerPoint installed

We recommend downloading a free software such as OpenOffice which will enable you to save or create presentations in .PPT and .PPTX format:

Please [click here](#) to download OpenOffice. Please [click here](#) for further information on using OpenOffice.

BENEFITS OF SUBMITTING A DIGITAL POSTER

- You can track statistics on the number of views and downloads (if you allow this option) your digital poster receives.
- Your poster can be easily searched via the Conference mobile app.

FFN Global Congress 2022

20 – 22 October 2022

Melbourne Convention and Exhibition Centre (MCEC), Australia

<https://www.ffnglobalcongress2022.com.au/>

- You can be contacted directly by interested delegates and have more tailored discourse with them if you wish.
- Delegates can download your digital poster in PDF format (if you allow them to do so).
- You may embed a 5-minute pre-recorded video in your poster that acts as an oral presentation of your research.

General Advice for first time Presenters

- The message that your poster contains should be clear and understandable without a requirement for oral explanation. Methods should be presented simply and concisely.
- After the title, the two most important panels are the Introduction and the Conclusion. On the basis of these two panels, a reader will decide whether to consider the poster details and perhaps talk to the presenter. These panels need to be very simple, concise, and visually attractive.
- Results should be presented graphically if possible. Avoid large tables of data. For visual effect, we recommend that graphs be no smaller than 12cm x 18cm. **Please be mindful of any copyright issues of photos used when creating your poster.**
- Use pictures, symbols, and colour. Figure legends are essential and should be short but informative. Each graph should have a short heading. A matt finish on photographs gives better visibility. Photographs should be no smaller than 12cm x 18cm.
- Use the space to attract your audience for discussion, not to present complex details of methods and results.

Declaration of Interest

All financial support for the work and collaboration must be acknowledged as part of the presentation.

Language

Please note that the official Congress language is English. **All posters must be made in English.**
